**LTC Jerry Forman, Department
Chair**

**Muscogee County School District
(MCSD) Philosophy:**

“To prepare students to become productive members of the business community, enter a post secondary institute or enter the workforce after graduation.”

MCSD CTAE Philosophy:

Career, Technical and Agricultural Education (CTAE) is a vital component of the total education of an individual and is available to every student in the Muscogee County School District who needs it, desires it, and can benefit by it. Our purpose is to equip these students with the fundamental academic, technical, and leadership skills they will need to be successful. Through partnership between education and industry, the Career, Technical and Agricultural Education curriculum will provide students with a solid foundation for their further education and future careers.

Spencer CTAE Overview :

Spencer High School’s CTAE department provides academic skills and real-world experiences necessary to build fulfilling careers in the 21st Century. Our department is structured for students to pursue grouped sequences of courses referred to as career pathways. Our pathways are grouped in the following areas of concentration: Automotive Services, Business & Computer Science, Cosmetology, Family and Consumer Science, JROTC, Public Safety, and Marketing.

Spencer students also have access to courses offered through the MCSD Career Academy (located on the Jordan High School Campus) and Columbus Technical College.
